

Mostafa Tobar

Senior Automotive Embedded Systems Engineer

mostafatobar3344@gmail.com

01151076438

Mostafa Tobar

Cairo, Egypt

GitHub

TECHNICAL SKILLS

- Embedded C
- Python
- MATLAB & Simulink
- MCU / BMS
- Reverse engineering
- AI Agents
- GIT / Github
- SolidWorks
- Hardware / Power electronics
- Vehicle diagnostic
- C/C++ Programming
- IOT / RTOS
- CNC
- PCB
- Electric design

OBJECTIVE

Senior Automotive embedded system engineer with over 4 years of proven experience, specializing in electric vehicles, embedded systems, and software development. Skilled in bridging technology with business and product development to deliver innovative and market-ready solutions.

EDUCATION

BSc, Ain Shams University - Mechatronics Engineering

09/2016 – 08/2021

- **Grade:** Very Good.
- **Graduation Project:** 3D Printing Using Binder Jetting (CNC)

WORK EXPERIENCE

Founder & AI Systems Engineer

02/2026

REVIOM

- Founded an AI-driven automotive technology startup focused on intelligent vehicle software solutions.
- Developing an intelligent automotive AI agent that combines LLMs with vehicle diagnostics and telematics.
- Building a cloud-native backend integrating Large Language Models (LLMs) APIs, automotive protocols, and connected vehicle services.
- Developing cross-platform mobile application.
- Designing a proprietary OBD telematics device to acquire real-time vehicle data and seamlessly integrate it with a mobile application.
- Designing the system architecture.

Senior Automotive Embedded System Engineer

2024 – 2026 | Germany/Egypt

seitech solutions Gmbh

- Acted as Product Owner for OBD software stack and Geofence modules – responsible for client communication, requirements analysis, and solution deployment from concept to deployment.
- Defined software requirements and contributed to software architecture design.
- Developed embedded solutions for:
 - (FMS) (BCM) (GPS) (OBD) (UDS)
- Researched EV technologies:
 - Motor Control Unit / BMS / EV charging protocols.
- Specialized in UDS, OBD-II, and CAN communication ISO (15765), with additional experience in UART, MQTT, GPS, and GSM.
- Strong experience with STM32, Visual Studio for development and testing and GitHub
- AI tool integration in R&D workflows

Projects:

- 1- OBD Telematics
- 2- FLEET MANAGEMENT SYSTEM
- 3- Geofence

R&D Automotive Technology Engineer

11/2023 – 11/2024 | Egypt

MATGR for engineering and trading 

- Lead R&D initiatives with external partners and government bodies on electric golf car design, focusing on innovative automotive solutions for battery systems and dashboards.
- Developed and implemented embedded solutions for automotive applications, enhancing product functionality and efficiency.
- Collaborated with the **Ministry of Higher Education and Scientific Research** on the EVtech project, contributing to advancements in electric vehicle technologies.
- Collaborated with **LVTONG China** for knowledge transfer in EV

Embedded & Electrical Technical Mentor

03/2024 – 08/2024 | Part time

EVER - Electric Vehicle Rally 

- Mentored and evaluated 43 university teams in the development of low-voltage and powertrain systems for electric vehicles, fostering innovation and technical excellence.
- Provided expert guidance on system design, component selection, and project management to ensure successful project execution.

CNC Machine Programmer and Mold Designer

10/2021 – 07/2023

- Reverse engineering and design of complex molds, using SolidWorks.
- G-codes using Autodesk PowerMill and operated FADAL 88HS Milling Machine.

INTERNSHIPS

National Telecommunication Institute (NTI), Digital Egypt

07/2023 – 10/2023

Youth Initiative, Intern Automotive Embedded Systems

Track 

Graduation project: Auto Parking system

Software Control Engineer (ASU Wind Turbine)

09/2020 – 07/2021

- Controlling and Monitoring a Small-Scale Wind Turbine (Pitch/Yaw).

COURSES

Embedded Systems diploma

QNX

MBD

Google AI Essentials

CERTIFICATES

- Master CAN BUS [Udemy] 
- C language [Hacker rank] 
- Google AI Essentials
- MBD - Using Stateflow

LANGUAGES

Arabic

Mother Tongue

English

Advanced
